generation IV

made for  
working

# intentional evolution

model 3830  
Vertical spine wire management has a weighted base that sits on the floor while the top connects to the worksurface with two channels to keep wires snug and out of sight.

model 4960  
Keeps cumbersome wires in place tied neatly behind the workstation.

Single and dual Flat Screen Monitor Arms can be assembled with single arm extensions or double arm and elbow to allow for the most efficient viewing position. Clamp or Grommet mount.

model 3565  
Crank adjustable monitor arm with copyholder, available in grommet or clamp mount with built in document and keyboard storage.

model 3570  
Economical gas spring monitor arm. Adjust tension to smoothly raise monitor by handle which can double as keyboard storage. Plastic cover in arm for wire management.

model 4601 series  
Perforated metal panel  
mounts to the surface  
providing seated height  
privacy.

model 4600 series  
Coordinated design to the  
privacy panel. Multiple units  
required for 60" and 72"  
width workstations.

Tool bars available in 36"  
and 48" widths. Your choice  
of accessories including  
paper and pencil trays.

Interface Privacy Panels  
Perforated design panels in  
single width including  
casters for mobility.

model #7669  
Undershelf that clamps to  
leg frame at any height for  
extra storage space for  
printers, fax machines, etc.

Only available with the basic  
product line.

model #5560 / 5561  
Overshelf that attaches to  
the table via clamp. Two  
sizes available - 36" & 48"  
with a 9.5" to 14.5" height  
range.

model 5980

Sturdy ABS plastic footrest is height adjustable to two positions. Can be set in lock or rocking position. Available in black and grey

model 1003

Crank handle permits smooth and easy adjustments. Stainless steel self-lubricating worm gears assure that the smallest effort will adjust the handles at 6.5 turns per inch.

model 8500 series

Store hanging files and office supplies in custom height units which fit under tables. Choose 2 or 3 drawers, Short, medium or full depth, low or desk height mobile pedestals. Counterweights assure proper operation, even when the drawer is fully extended.

model 5590

Recapture workspace by storing the CPU out of the way with our leg mounted CPU holder.

Only available with the basix product line.

model 3850

Free-standing copyholder with two sizes of integrated rulers. Operates by return key button. Holds letter and legal paper and expands to accommodate computer printouts.

model 3851

Same as model 3850 except continuous angle ruler mechanism and manual ruler guide for the economically minded.

model 3845

Free-standing mobile CPU holder with adjustable width. Holds most towers and CPU's. Easy access for cleaning.
